

Collegarsi al sito www.weatherlink.com se non si ha un account crearlo cliccando su "Sign Up".

Nella schermata successiva Inserire i dati richiesti, poi cliccare “Next”.

The image shows a web browser window displaying the WeatherLink Registration page. The browser's address bar shows the URL <https://www.weatherlink.com/ustr/>. The page features a dark blue header with the "WEATHERLINK" logo. The main content area has a background image of a mountain range at sunset. A white modal window is centered on the page, titled "SIGN UP". It contains a "Back" link in the top right corner, a person icon, and four input fields: "Email (Required)", "Username (Required)", "First Name", and "Last Name". Below the fields is a checkbox labeled "Please send me product announcements and the WeatherInsider newsletter." At the bottom of the modal is a "Next" button and a link that says "Have an account? [Log In](#)".

Inserire la password, selezionare la spunta “I’m not a robot” e cliccare “Next”.

Lo “Username” e la “Password” inserite saranno le stessa da utilizzare nella App per lo smartphone.

Se si vuole si può inserire una immagine di profilo. Cliccare “Create Account” per procedere.

Cliccare su "Get Started"

Unlock the full potential of your Weather Station

Appare la schermata iniziale (sotto). Ora si possono cercare le stazioni meteo nel mondo con dati condivisi. Si può cliccare su “map” e selezionare la stazione meteo dalla piantina (immagine successiva a quella sotto) o digitare il nome nel campo “Search locations & stations” (quarta immagine a seguire).

Cliccando sul punto che indica la stazione meteo e poi su "bulletin", si potranno visualizzare a schermo i dati della stazione meteo selezionata.

The screenshot shows the WeatherLink website interface. At the top, there is a navigation bar with 'WEATHERLINK' and menu items like 'bulletin', 'chart', 'data', 'map', and 'mobilize'. A search bar is present on the right. Below the navigation bar, a temperature scale is visible, ranging from -10°F to 100+°F. The main content area features a map of Ravenna, Italy, with several weather stations marked. A popup window for 'GCA Ravenna' is open, displaying the following weather data:

Temperature:	36 °F
Humidity:	91 %
Wind:	8 mph WSW 261 °
Barometer:	30.36 in Hg Steady
Daily Rain:	0.00 in

A 'bulletin' button is located at the bottom of the popup. The sidebar on the right lists 'Nearby Stations' including BB Ca' Ridolfi, RicciGuardigli Barisano Forli, Adriatico Wind Club - Porto Corsini, Ravenna MB Station, ferrara6, Meteo Comacchio Tenuta Origlia, and CIV San Giuseppe (FE).

Cliccando su "Save" la stazione meteo viene salvata e sarà visibile la prossima volta che ci si collega e sarà visibile anche dalla App sullo smartphone.

Stazione meteo salvata

Si può trovare la stazione meteo, digitando direttamente il nome, in questo caso “GCA Ravenna”

The screenshot displays the WeatherLink website interface for the GCA Ravenna weather station. The browser address bar shows the URL <https://www.weatherlink.com/bulle>. The website header includes navigation tabs for 'bulletin', 'chart', 'data', 'map', and 'mobilize', along with a search bar and an 'Add Devices' button. The main content area is divided into several weather widgets:

- Wind Speed:** A gauge showing 7 mph.
- Humidity:** A gauge showing 91%.
- ET (Evapotranspiration):** A bar chart showing 24.81 in for the year.
- UV Index:** A gauge showing 0.
- Temperature:** A bar chart showing values for Outside Temp (37), Wind Chill (32), Heat Index (37), and Dew Point (35).
- Wind Rose:** A circular chart showing wind direction and speed, with a 'DAY' legend for wind speed ranges in knots.
- Current Rain:** A gauge showing 0.20 in/hr.
- Total Rain:** A bar chart showing 1.35 in for the month and 12.62 in for the year.
- Barometer:** A console showing a time series from 4 AM to 8 AM.
- Solar Radiation:** A gauge showing 149 W/m².

A search dropdown menu is open, displaying the following information for 'GCA Ravenna':

- Stations:** GCA Ravenna
- Locations:** Guardia Costiera Ausiliaria Ravenna, Via Alfredo Oriani, Ravenna, Province of Ravenna, Italy
- Address:** G.C.A. Italia Di Muchetti Roberto & C. Sas, Via Alfredo Comandini, Faenza, Province of Ravenna, Italy

The search results are powered by Google.

L'App da installare su smartphone si chiama "WeatherLink" e si può vedere di seguito.

Una volta installata, la prima volta che viene fatta partire, l'applicazione chiederà l'inserimento del nome utente e password che si erano inserite al momento della creazione dell'account sul sito www.weatherlink.com.

Dopo di ché dovrebbe essere visibile quanto segue se sul sito www.weatherlink.com era stata salvata la stazione meteo indicata:

Toccando la figura della stazione meteo indicata che riassume in breve i dati con la situazione attuale, si possono visualizzare dati istantanei, previsioni e storico.

Sul Web possono trovarsi facilmente tutorial come il seguente:
